

## ***HONORS, AP1 & AP2 Taylor Homework Guidelines***

Each of the following Guidelines is covered on the initial PPTX in detail. We will use the [FREE OpenStax Physics Text](#).

1. Each Homework Assignment due date is already posted on the [AP1 Calendar](#) or [AP2 Calendar](#). You are provided *roughly one week* to complete each text book assignment. There are nightly assignments only rarely.
2. Full credit is awarded for COMPLETING a vast majority of the assignment. The regular text book homework assignments are not graded for accuracy, only successful completion.
3. NO CREDIT for late assignments under any circumstances not cleared ***well in advance***.
4. It is then YOUR responsibility to ask to review any and all homework questions and problems in class. The solutions will be provided upon your request anytime.
5. There is a [STUDENT SOLUTION MANUAL](#) linked from the OpenStax Text Book Folder on Schoology. The Student Solution Manual (SSM) is a free download for students. The SSM has full stepped out solutions for every third conceptual question and every sixth problem. Answers to all odd problems will be displayed in the online version when the student clicks the “Answer” link under an odd problem. DO NOT rely on more than a handful of these SSM exercises for your homework assignments.
6. ***Each homework assignment from the text book is the same for every unit.*** You are to complete,
  - For CHAPTER ONE ONLY: Each and Every ODD # Q & P
  - For CHAPTER 2 AND EVERY CHAPTER AFTER CHAPTER TWO: Complete every 3<sup>rd</sup> Q & P at end of chapter starting with #1 (#1,4,7,10,13,...)
